

ALU55

Upgraded five ton aluminium bunk

- modernized appearance
- even stronger bunk frame
- support cassette as standard
- removable stakes
- one length or extendable stakes
- anodizing - the ultimate surface finishing
- effective stripes
- lights as option

Easy to install. Simple and safe to handle. Nut socket to speed up the installation.

The material of the stakes is optimized for the load. Due to the surface treatment of the bunk, less maintenance is needed, the lifecycle of the bunk is increased and the bunk is less prone to corrosion.

	A	B	C-D	E	kg
ALU 55	2550	max 3000	—	175	87,8–93,5
ALU 55	2600	max 3000	—	175	88,5–94,3
ALU 55 E ⁽¹⁾	2550	—	2250–3000	175	91,5
ALU 55 E ⁽¹⁾	2600	—	2250–3000	175	92,2

Weight of the fixings depending on the model approx. 27 kg/pair.

⁽¹⁾ extendable stake
